This property has one of the every best views of Table rock to be found anywhere in the area, Within walking distance to Table Rock State Park. This would be equally great as a residence, or multiple cabins for the Vacation rental program, or as a commercial business. This is a premier property for the area, and it is rare that this type of property with this kind of view becomes available . The home site has already been cleared and is ready for construction, and speaking of construction, one nice feature is that this property is right across the road from Table Rock Construction. They can develop the lot however you like , or could build any kind of Timber frame structure you need.
