Webster's dictionary defines luxury as the use and enjoyment of the best, and most costly things that offer the most physical comfort and satisfaction. These things can happen for a short period of time at a fine restaurant, a spa, or on a special vacation. Or the luxury can come in lasting steps. The food we eat, the clothes we wear, the car we drive, the home we own.

The steps are rewards to our intellectual and emotional pleasure. They are real. Each luxury has a value of comfort and satisfaction. A luxury home in the Katy area is defined as being over \$600,000.

I view many homes and work with some incredible builders. The luxury home builders strive to build their homes to exceed expectations. They incorporate value, art, elegance, and design.

If you desire graceful luxurious living among beautiful surroundings, call Phil Huffman.
